FLORIDA PAIN MEDICINE DOES NOT PRESCRIBE ANY PAIN MEDICATIONS ON THE FIRST VISIT

We ask that you arrive 30 minutes early with paperwork completed or 1 (ONE) hour prior to your appointment time if paperwork is to be completed in office. This allows us to review your paperwork and prepare your chart for the doctor. We have allotted a substantial portion of our schedule to complete your history and examination, and provide you with an adequate consultation. Patients who do not show for their appointments may be charged an administrative loss fee which must be paid prior to being rescheduled. **Please call the office at 813-388-2948, extension 10000, at least 24 hours in advance if you need to reschedule.**

Please complete the enclosed patient information packet to the best of your ability. We have provided a checklist to ensure that you have all the information required for your first visit, even though we may already have some of the items. If our physician doesn't have sufficient information to perform an adequate pain consultation, we may be forced to reschedule your visit. Please help us by providing the following:

1. _____ New patient packet, including:
 - a. Health History Questionnaire and Registration form (highlighted information only)
 - b. Read and provide signature on Consent to Treat Form, Financial Policy, Certification, Patient Privacy Questionnaire, Opioid Consent (initial as well) and Special Notice from the University of South Florida and Florida Pain Medicine
2. _____ Relevant Medical records from referring and/or Primary Care Physician
3. _____ Relevant Medical records from other physicians, hospitals or previous pain physicians
4. _____ Relevant X-ray reports, MRIs, CT Scans/films, EMG Nerve conduction and any other pain studies
5. _____ Driver's license or other Photo identification and Insurance card
6. _____ Please bring a Formulary Medication List which can be found on your insurance company's website or in your insurance company's handbook

Please do not forget your paperwork, films, reports and pill bottles for your first appointment. Copies of the new patient packet forms are also available on our website at www.FloridaPainMedicine.com with further information about the practice, physician(s) and common pain problems should you need to reference that information. Should you have any questions or need any assistance with the new patient intake process please feel free to contact us anytime. We look forward to meeting you and serving your pain care needs, and want to thank you for allowing Florida Pain Medicine the opportunity to care for you.

I certify that I have answered all the questions truthfully and have not knowingly withheld any information concerning any problems, either past or present.

I understand that the physicians and staff of FLORIDA PAIN MEDICINE will only be evaluating my condition as it relates to my pain. Any condition which is not specifically pain-related must be followed and evaluated by my primary care physician.

I understand that the procedures and medications which may be prescribed by FLORIDA PAIN MEDICINE can potentially have adverse effects on the status of one's fertility as well as a developing fetus. I will notify my pain management physician if there is any change in my fertility status or pregnancy status.

I understand that the procedures and medications which may be prescribed by FLORIDA PAIN MEDICINE can potentially impair my ability to drive and operate machinery. I pledge to never drive impaired.

I understand that it may be at times difficult to obtain prompt consultation with the physicians or staff of FLORIDA PAIN MEDICINE. If there is ever a significant deterioration on my function or progression of symptoms, I will seek prompt medical attention elsewhere.

AUTHORIZATION AND ASSIGNMENT

I hereby authorize my Florida Pain Medicine practice location to release any medical information necessary to process any and all claims for reimbursement on my behalf. I authorize payment to be made directly to Florida Pain Medicine (or named physicians or affiliates) for services rendered. I also authorize payment of government benefits to the physician (entity) and any payments related to cross-over medigap insurers. I request that payment of authorized secondary insurance be made either to me or on my behalf to the above-named entity. I understand that I am financially responsible for all charges if they are not covered by my insurance. In the event of default, I agree to pay all costs of collections and reasonable attorney's fees. I certify that the information I have reported with regard to my insurance coverage is correct. I further agree that a photocopy of this agreement shall be considered as effective and valid as the original.

FINANCIAL POLICY

Thank you for choosing us as your Health Care Provider. We are committed to your treatment being successful. Please understand that payment of your bill is considered a part of your treatment. The following is a statement of our Financial Policy which we require that you read and sign prior to any treatment.

All patients must complete our "Patient Information Form" before seeing the doctor.

THE REQUIRED PAYMENT IS DUE AT THE TIME OF SERVICE. We accept cash or credit/debit cards.

REGARDING INSURANCE

We accept assignments from Medicare and other major Health Insurance; however, we do require the 20% co-pay from Medicare members or the co-payment for any insurance. We cannot bill your insurance unless you bring all your insurance information and an original claim form. Your insurance policy is a contract between you and your insurance company, and we are not part of the contract. In the event we do accept assignment of benefits, we require that you be pre-approved for our Extended Payment Plan with the authorization to bill that account for the balance. If your Insurance has not paid your account in full within 45 days, the balance of your account will be automatically billed to you. Please be aware some and perhaps all of the services provided may be "non-covered" services and not considered reasonable and necessary under the Medicare Program and/or other medical insurance. Our practice is committed to providing the best treatment possible for our patients, and we charge what is usual and customary for our area.

MISSED APPOINTMENTS

Unless canceled at least 24 hours in advance, our policy is to charge for missed appointments at the rate of \$50.00. Please help us serve you better by keeping your scheduled appointments.

Thank you for understanding our Financial Policy. In the event the account is referred to a Collection Agency or Attorney, you agree to pay all costs involved of any collection efforts. Please let us know if you have any questions or concerns.

I have read the Financial Policy (above). I understand and agree to this Financial Policy.

FAILURE TO FOLLOW PHYSICIAN ORDERS

“Physician Orders” are meant to improve and/or resolve the patient’s medical condition and / or symptoms. The patient is expected to follow orders given. In the event the patient does not follow orders given, the patient may be discharged from the treating physician care and/or facility from any injury or illness claim resulting from the patient’s failure to follow orders. Not following orders given can include but is not limited to missing, postponing, or refusal of additional tests to rule out, confirm, or discover illness. Also, missing, postponing or refusal of making scheduled appointments can be considered failing to follow physician’s orders. I have read, understand and agree with the above.

AUTHORITY TO TREAT AND GUARANTEE OF PAYMENT FOR MEDICAL SERVICES

Re: Patient Name:
Date of Loss:

- 1.) Florida Pain Medicine (hereinafter referred to as "FPM"), has agreed to provide medical care and services to the below signed Patient, (hereinafter referred to as "Patient").
- 2.) Because the Patient is being seen at FPM due to injuries possibly sustained as a result of a liability/traumatic event, this document becomes necessary, in order to secure future payment of the medical charges.
- 3.) Due to the Patient's inability to pay the charges at the time services are rendered, Patient has requested an alternate payment arrangement with FPM.
- 4.) As one possible payment source, FPM is authorized by Patient to seek payment for the medical care and services provided, from the proceeds of the Patient's settlement or jury verdict which results from any liability claim/claims brought by the Patient.
- 5.) In consideration for this Authority to Treat and Guarantee of Payment for Medical Services, FPM agrees to defer attempts to collect payment for the medical care and services rendered, until the conclusion of Patient's liability claim/claims resulting from this traumatic event.
- 6.) Patient expressly agrees that regardless of the outcome of any liability claim/claims, which is the subject of their traumatic event, the below signed Patient remains personally responsible for any unpaid balance at the conclusion of their liability claim/claims.

Information on Nonopioid Alternatives for the Treatment of Pain Acknowledgment Page

I have received the Pamphlet issued by the Florida Department of Health, and my physician has reviewed with me the advantages and disadvantages of the use of non- opioid alternatives for the treatment of pain.

A Division of Advanced Pain Management

**PHYSICIAN/PATIENT INFORMED CONSENT AND AGREEMENT
FOR LONG-TERM OPIOID/NARCOTIC THERAPY
FOR TREATMENT OF CHRONIC PAIN**

PATIENT NAME: _____ **DOB:** _____

You have agreed to or may potentially receive opioid/narcotic therapy for the treatment of chronic pain. You understand that these drugs are very useful but have a potential for misuse and are therefore closely controlled by local, state and federal governments. The goal of this treatment is to: (a) reduce your pain; and (b) improve your level of function in performing your activities of daily living. Our goal at Florida Pain Medicine is to not initiate or continue opioid therapy whenever possible, but sometimes this may be warranted for more effective pain management.

Alternative therapies and medications have been explained and offered to you. You have chosen opioid/narcotic therapy as one component of treatment.

The use of cigarettes demonstrates a dependence on nicotine. This complicates opioid therapy. If you are a smoker, you have agreed to a smoking cessation program.

You must be aware of the potential side effects and risks of these medications. They are explained below. If you have any questions or concerns during the course of your treatment, you should contact your physician.

SIDE EFFECTS

Side effects are normal physical reactions to medications. Common side effects of opioids/narcotics include mood changes, drowsiness, dizziness, constipation, nausea, and confusion. Many of these side effects will resolve over days or weeks. Constipation often persists and may require additional medication. If other side effects persist, different opioids may be tried or they may be discontinued.

You should **NOT**:

- a. operate a vehicle or machinery if the medication makes you drowsy;
- b. consume **ANY** alcohol while taking opioids/narcotics; or
- c. take any other non-prescribed sedative medication while taking opioids/narcotics.

The effects of alcohol and sedatives are additive with those of opioids/narcotics. If you take these substances in combination with opioids/narcotics, a dangerous situation could result, such as coma, organ damage or even death.

Driving while taking opioids for chronic pain is considered medically acceptable as long as you do not have side effects such as sedation or altered mental status. These side effects usually do not occur while taking opioids/narcotics chronically. However, it is **possible** that you could be considered DUI if stopped by law enforcement while driving.

Opioids have also been known to cause decreased sexual function and libido. This is due to their effects on suppression of certain hormones such as testosterone and DHEA which can cause these side effects. Your hormone levels can be monitored during your treatment.

Constipation is a well-known side effect of opioid therapy and can usually be treated with stool softeners or gentle laxatives. Constipation is a side effect that usually does not go away and requires treatment.

RISKS

Dependence

Physical dependence is an expected side effect of long-term opioid/narcotic therapy. This means that if you take opioids/narcotics continuously, and then stop them abruptly, you will experience a withdrawal syndrome. This syndrome often includes sweating, diarrhea, irritability, sleeplessness, runny nose, tearing, muscle and bone aching, gooseflesh, and dilated pupils. Withdrawal can be life-threatening. To prevent these symptoms, the opioids/narcotics should be taken regularly or, if discontinued, reduced gradually under the supervision of your physician.

Tolerance

Tolerance to the pain-relieving effect of opioids/narcotics is possible with continued use. This means that more medication is required to achieve the same level of pain control experienced when the opioid/narcotic therapy was initiated. This may occur even though there has been no change in your underlying painful condition. When tolerance does occur, sometimes it requires tapering or discontinuation of the opioid/narcotic. Sometimes tolerance can be treated by substituting a different opioid/narcotic. When initiated, doses of medications must be adjusted to achieve a therapeutic, pain-relieving effect; upward adjustments during this period are not viewed as tolerance.

Increased Pain (Hyperalgesia)

The long-term effects of opioids/narcotics on the body's own pain-fighting systems are unknown. Some evidence suggests that opioids/narcotics may interfere with pain modulation, resulting in an **increased** sensitivity to pain. Sometimes individuals who have been on long-term opioids/narcotics, but who continue to have pain, actually note decreased pain after several weeks off of the medications.

Addiction

Addiction is a primary, chronic, neurobiological disease, with genetic, psychosocial, and environmental factors influencing the development and manifestations. It is characterized by behaviors that include one or more of the following:

- impaired control over drug use;
- compulsive use;
- continued use despite harm; and/or
- craving.

Most patients with chronic pain who use long-term opioids/narcotics are able to take medications on a scheduled basis as prescribed, do not seek other drugs when their pain is controlled, and experience improvement in their quality of life as the result of opioid therapy. Therefore, they are **NOT** addicted.

Physical dependence is **NOT** the same as addiction.

Risk to Unborn Children

Children born to women who are taking opioids/narcotics on a regular basis will likely be physically dependent at birth. Women of childbearing age should maintain safe and effective birth control while on opioid/narcotic therapy. Should you become pregnant, immediately contact your physician and the medication will be tapered and stopped.

Long-Term Side Effects

The long-term effect of opioid/narcotic therapy is not fully known. Most of the long-term effects have been listed above. If you have additional questions regarding the potential long-term effects of opioid/narcotic therapy, please speak with your physician.

PRESCRIPTIONS AND USE OF OPIOID/NARCOTIC MEDICATIONS

Your medication will be prescribed by your physician for control of pain. Based on your individual needs, you will be provided with enough medication on a monthly basis, two-month basis, or three-month basis. New injuries or pain problems will require reevaluation. Prescriptions for opioids/narcotics will **not** be “called in” to the pharmacy.

You agree that you must be seen by your physician at a minimum of every three months during the course of your therapy.

You agree and understand that increasing your dose without the close supervision of your physician could lead to drug overdose, causing severe sedation, respiratory depression and/or death.

You agree and understand that opioid/narcotic medication is strictly prescribed for you, and your opioid/narcotic medication should **NEVER** be given to others.

You agree to fill opioid/narcotic prescriptions at one pharmacy.

You agree to secure your opioid/narcotic medications in safe, locked source to prevent loss or theft. You are responsible for any loss of theft.

You agree that lost, stolen or destroyed prescriptions or drugs **will not** be replaced, and may result in discontinuation of treatment.

You agree to obtain opioid/narcotic medication from one prescribing physician or that physician’s substitute if your prescribing physician is not available and your prescribing physician has authorized his or her substitute to provide treatment.

You agree to submit to an initial examination and evaluation, to routine examination and evaluation on a monthly basis or regular basis (but no less than once every three months), and to examination and evaluation at the direction of your physician.

You agree to submit to blood and/or urine testing to monitor the levels of medication or other drugs and any organ side effects. **You also agree** that other doctors and law enforcement may be notified of the results.

You agree NOT to call the physician for refills or replacement medications during evening hours or on weekends/holidays. Medication refill and/or replacement requests will be addressed during regular business hours only.

You understand and agree that if you lose your medication or run out early due to overuse, you may experience and go through withdrawal from opioids/narcotics. **You further understand and agree that you are solely responsible for your own medications.**

You agree to bring all prescription medications in their bottles or containers to the office during regularly scheduled visits.

You agree to provide a list from your pharmacy detailing all medications received from that pharmacy and to provide updated lists as requested by your physician.

For patients taking methadone: Methadone has significant interactions with many other medications. Some of these medications may reduce your body’s ability to metabolize methadone, thus

INCREASING the methadone in your body, which could be dangerous. Therefore, you **MUST** notify this office of **ALL** medications prescribed for **ANY** condition while taking methadone.

OPIOID/NARCOTIC THERAPY MAY BE DISCONTINUED IF YOU:

- develop progressive tolerance which cannot be managed by changing medications;
- experience unacceptable side effects which cannot be controlled;
- experience diminishing function or poor pain control;
- develop signs of addiction;
- abuse any other controlled substance (this may be determined by random blood/urine testing);
- obtain and or use street drugs (this may be determined by random blood/urine testing);
- increase your medication without the consent of your physician;
- either refuse to stop or resume smoking;
- obtain opiates/narcotics from other physicians or sources;
- fill prescriptions at other pharmacies without explanation;
- sell, give away, or lose medications;
- fail to submit to routine examination and evaluation on a monthly basis or regular basis (but no less than once every three months), or as directed by your physician;
- fail to bring your prescription medications to your regularly scheduled visits;
- fail to submit to blood/urine testing as directed;
- call for refills during evenings, weekends or holidays; or
- violate any of the terms of this agreement.

By signing below, Patient acknowledges and agrees that: (i) I have read and fully understand the Physician/Patient Informed Consent and Agreement for Long-Term Opioid/Narcotic Therapy for the Treatment of Chronic Pain; (ii) I have been given the opportunity to ask questions about the proposed treatment (including no treatment), potential risks, complications, side effects, and benefits; (iii) I knowingly accept and agree to assume the risks of the proposed treatment as presented; and (iv) I agree to abide by the terms of this agreement.
