

CO-ORDINATION OF BENEFITS STATEMENTS

Dear Patient,

Coordination of benefits is designed to help contain health insurance costs. When a second health insurance policy exists it is important to assign the proper responsibility for the requests of benefits. The proper assignment of responsibility may even save you some out of pocket expenses which may remain after the other insurance carrier has made its payments.

If you don't have other health insurance coverage or have already assigned the proper responsibility to all your insurance carriers, please sign this form so we can send it to your Primary Insurance Carrier, if they suspect that you have other health insurance coverage or that responsibility has not been assigned properly. This statement will help expedite the billing process.

I attest that I am not covered under any other Health Insurance and/or that I have assigned the proper responsibility to all my health insurance carriers at the time services are rendered.
