

## **Your First Smile & Company Dental Visit**

Here at Smile & Co, we strive to give every patient the ultimate dental experience with personalized, one of a kind(ness) service. Stress free dentistry with a simple touch! We go above and beyond to make a positive impact on our patients' smiles and their lives making our patients apart of our company. Our goal is to help you achieve a smile that you love!

## **What to Expect at Your Initial Visit**

We understand that visiting a new dentist can be a bit nerve-wracking. To ease your mind, we've provided a walk through of your first visit so that you can know what to expect at our office before you ever walk in the door. We look forward to meeting you and helping you take care of your smile & overall Oral Health!

### **Registration**

After a friendly welcome from our team, we will ask you to fill out our registration forms to help us get to know you. If you would like to get a head start on your paperwork, feel free to download our Online forms.

### **X-Rays**

Using our state-of-the-art digital radiography equipment, we will take a series of X-rays, to help us evaluate the health of your smile. These are important in enabling our doctors to complete a comprehensive exam of your mouth.

### **Complete Exam**

One of our experienced doctors will discuss your dental and medical history with you, including the reason for your visit. We will then review your X-rays and perform an oral exam.

### **Treatment Plan**

The exam enables our team to understand how to treat your immediate dental needs and develop a personalized, comprehensive treatment plan. This treatment plan will cover both short-term and long-term oral health concerns.

### **Consultation**

After your exam with our doctor, our team will meet with you to answer any other questions you may have and to discuss payment options. If needed, we will also schedule a follow-up appointment.
