## FASHION FORWARD

---

“My husband was surprised that I got it done so quickly,” says Clara Colon. “He was a little bit worried about them being artificial, stiff and hard. He was surprised to see how great they looked.”

Breast aesthetics, according to Clara, were important: “You go online, see boob jobs and say, ‘Hey, they look like two balls on somebody’s chest.’ But they don’t look funky on me. I was really surprised.”

Clara says she’s so happy with her results that she’s referred

her niece and a girlfriend to her surgeon, Dr. Jovanovic. “He’s just so patient. We had e-mails while I was home about feeling better. His bedside manner is A++. It’s hard to find a doctor like that. He took extra time to explain things to me. His response time to e-mails was awesome.”

“I look better in a strapless dress, now. It’s given me a little bit more confidence. It was to the point where I wouldn’t wear certain things. But now, it’s like I can wear anything because I look good in it,” she laughs. ☺
