

Procedure After Care-Colonoscopy

YOUR COMPREHENSIVE SURGICAL SOLUTION
GENERAL, COSMETIC AND BARIATRIC SURGERY

What should I expect?

You may feel full and bloated when you wake up. This is normal and will pass as you expel air that we have pumped into the colon during the procedure.

When you are alert enough, the nurses will let you go home. **Remember you must have someone drive you home. No driving after your procedure for the entire day.**

Unless instructed otherwise, you may eat anything you wish.

Note: If you have severe abdominal pain, fever (greater than 101°F) or if you pass more than a tablespoon of blood from your rectum, please call our office. If you have any further questions or experience any problems please do not hesitate to call our office.

Please call the office to schedule a follow-up in 5-7 days. Our phone number is 512-436-9986.

Best,

Dr. Ditto
