

A HOLISTIC APPROACH TO MEN'S HEALTH.

A concierge style health and wellness program designed for the unique health needs and concerns of men.

Welcome to the age of personalized medicine. Our integrated programs are science-based, leveraging selected components in regenerative medicine, as well as bioidentical hormone replacement, integrated with technologically advanced treatments to help you optimize your cognitive, physical and sexual well-being. Our holistic approach doesn't just treat the symptoms associated with aging, it addresses the root causes to help you achieve the lasting results you want.

Regain your energy and intensity now, reach out to us and start your journey to living better.

HOLISTIC CONCIERGE HEALTH PROGRAM

Restore your vigor and appetite for life with our Holistic Concierge Program. This annual program is our most comprehensive wellness program. It features an extensive array of innovative treatments, coupled with frequent on-going assessment and calibration of all the key health factors that can contribute to a man's overall health and well-being. The cutting edge treatments are designed to optimize your health and wellness throughout the year, while the extensive diagnostic evaluations at regular intervals enhance the likelihood of early detection for disease and conditions that can be easily missed by a basic health check up. This concierge style program is designed for men who do not currently have a concierge primary care physician.

ESSENTIALS HEALTH PROGRAM

Our Essentials program is designed for men seeking a baseline program for health and wellness or just looking to maintain their current health by impeding the effects of gradual decline associated with aging. Our Essentials Program includes an annual assessment, calibration and extensive diagnostic evaluation designed to help you improve or maintain your overall health and sexual wellness at an essential level.

LIVING LONGER ISN'T
GOOD ENOUGH...
LIVE BETTER

HOLISTIC CONCIERGE HEALTH PROGRAM
50 MEMBER LIMIT

ESSENTIALS HEALTH PROGRAM
NO MEMBER LIMIT

TREATMENT

ASSESSMENT + CALIBRATION

Health evaluation with Dr. Threatt to assess and develop/calibrate your Men's Health program based on your current health condition or response to program.

Annual

DIAGNOSTIC EVALUATION

Extensive lab panel with HGH levels, CACT (Calcium Artery CT Scan) and psychometrically validated health inventory. Results of diagnostic will only be shared with member's PCP upon written authorization.

Annual

CONCIERGE MEDICAL SERVICES

1:1 communication with Dr. Threatt, seamless coordination with other care providers, prescription services, facilitation of pre-authorizations and referrals to top specialists with assistance in scheduling medical appointments. This program is designed for men who do not currently have a concierge physician.
