

Release for school per CDC Guidelines.

This form represents the medical guidance of the Center for Disease control. We can only affirm illness in a child, we cannot document that they are not carrying Covid in their body. Each school or social event will carry their own rules, but we cannot medically waive their rules or reasons for excluding or including our patients. Please contact our office if you have a medical question, but here is our clearance form for you to fill out. We do not have the resources to perform Covid testing to clear patients for activities, school, or travel.

- ☐ My child has not had a fever of over 100.4 for greater than 24 hours without any fever medication.
- ☐ My child has had improved symptoms of illness

Only One item below must be checked

- ☐ My child has had 10 days pass from the onset of symptoms (if yes stop)
- ☐ My child had a negative covid test done at day 1 to 5 of illness (if antigen) or a negative pcr test if ill greater than 5 days (if yes stop)
- ☐ Here is documentation that the symptoms that have been seen in my child are chronic and part of another diagnosis that my child carries.

You can request a problem list or confirmation of diagnosis from our record dept.
