

Dentistry with a *Gentle Touch*

Nishano Thomas, DMD, Offers a
New and Unique Experience in Dentistry.

Free teeth whitening and
Free Massage—for life!*

By Anna Charles

Going to the dentist may be routine for some people, but Dr. Nishano Thomas' patients will tell you there's nothing routine or common about a visit to see her at Memorial Park Dental Spa. After just one appointment you'll actually look forward to your next visit, like Ray, who says Dr. Thomas' office "is one of the most pleasant places to go to." He explained, "They make you feel at home right away. You're greeted with a smile—everyone is so nice. Dr. Thomas is refreshing. Not only is she a very good dentist, she makes you feel comfortable. It's really the perfect combination of great dentistry and a great experience. I have recommended Dr. Thomas to people and can't say enough good things about her and her staff."

Affordable, Quality Dentistry

Our smile is forever. Dr. Thomas makes it easy for you to receive the best dental care whenever you need it, so you don't have to compromise. She believes that quality dentistry, with an experienced dentist who stays up-to-date on new advances in dentistry and uses the latest technology, is something that should be affordable and available for her patients. Following her philosophy of doing what's in her patient's best interest, Dr. Thomas has developed innovative ways to help you get the dentistry you deserve.

1. **Nearly all dental insurance plans are accepted.** The staff will work with your insurance provider and file dental claims on your behalf.
2. **Free preventive care.** Cleanings and routine check-ups are free—without insurance co-pay for insured patients.
3. **No dental insurance?** No problem! Dr. Thomas has developed an innovative Dental Assurance Plan which offers a cost effective option. The Dental Assurance Plan works very similar to a traditional insurance plan except that your coverage is only valid at a Memorial Park Dental location. Call 713-DENTIST (336.8478) for more information about this innovative and helpful plan.
4. **Dental Warranty.** Dr. Thomas is confident in the high level of quality work she and her team provide, and guarantees the restorative work they perform. Memorial Park Dental Spa will adjust, repair, replace, or refund, at their discretion, free of charge, due to material defect, as long as all other recommended work is completed and all preventive hygiene procedures are performed at recommended intervals. Visit MemorialParkDentalSpa.com for more details.
5. **Financing Options.** Most major credit cards are accepted and financing options are available to qualified patients through CareCredit® and Chase Health Advance™. In-office financing with no interest is also available.

Dr. Thomas has a unique vision that combines dentistry with health and wellness.

Bob's first visit to Dr. Thomas was shortly after she opened her practice in Memorial Park, and he's been seeing her ever since. "During my first appointment with Dr. Thomas I discovered a big difference from the dentistry I had been accustomed to. Dr. Thomas is unique, combining dentistry with your overall health and wellness. She's so refreshing, and vastly different than the dentists I'd seen in the past."

"I had problems with TMJ and suffered from headaches. No other dentist had been able to help me, but Dr. Thomas did. She determined that my bite was misaligned and developed a creative treatment plan to correct it. Today, I no longer get headaches, thanks to Dr. Thomas."

"I really enjoy her office. You get in and out quickly, she asks all the right questions, and she's very sincere. She always asks how I feel. Dr. Thomas' staff embraces the same concepts as she does that combine patient care, dentistry, and health and wellness. Everyone is friendly too. When I come in they know me by name and ask how I'm doing. The atmosphere is friendly and everyone is genuine. You couldn't ask for more as a patient."

— Bob

A Unique & Wonderful Experience Awaits You

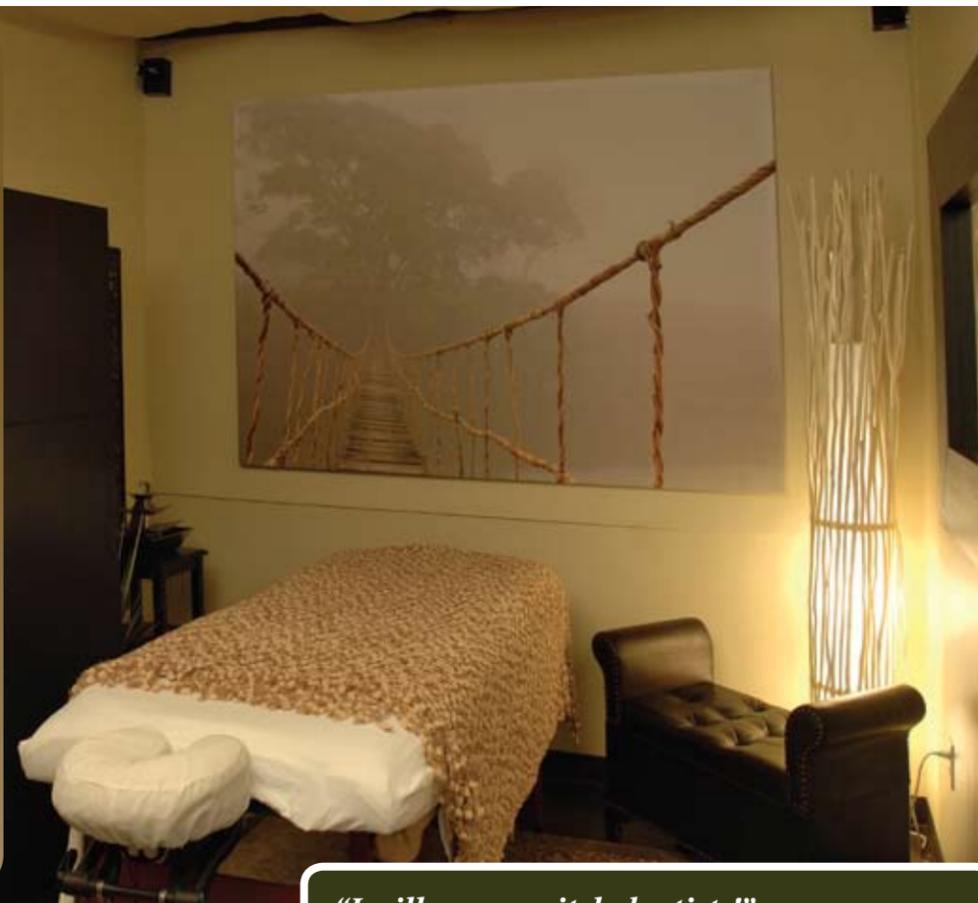

Welcome to Memorial Park Dental Spa! Expect to be delighted from the moment you first walk in the door to the end of your visit. Being greeted by name with a friendly smile is just the beginning. Everyone on staff goes above and beyond to help ensure each patient feels relaxed and at home. If you arrive early for your appointment, you can relax in the stylish reception area and enjoy amenities like complimentary beverages and freshly baked cookies. In the treatment rooms you are made comfortable with pillows, music, eye covers, and blankets, but there's much more. Dr. Thomas' office includes full-service day spa on site.

Combining luxury day spa services with dentistry might seem like an unlikely pairing, but once you've experienced it you'll agree that it's a perfect match. Spa services help patients unwind before, during, and after dental appointments. Many patients choose to start their appointment with a stress-relieving treatment such as a therapeutic massage from a licensed massage therapist. Why not relax in the dental chair and get a soothing spa foot therapy or a hand massage? Patients love the peppermint foot reflexology, or how about trying a hydrating foot treatment followed by a warm river stone foot massage to soothe away tension?

Patient convenience is also a top priority for Dr. Thomas. After-hours appointments are available and she offers an impressive set of comprehensive services for the entire family including general and cosmetic dentistry, Invisalign® braces, dental implants, periodontal therapy, and more. She commented, "With a wide range of services provided in one office, our patients are

Patients Love Memorial Park Dental Spa & You Will Too!

- Full-service day spa
- Free annual massages & teeth cleaning (for insured patients)
- Free teeth whitening for life
- Convenient office hours/after work appointments
- No preventive co-payments ("We pay them for you.")
- Warranty on restorative services
- High quality custom-made in the USA lab work
- No insurance? No problem. Memorial Park Dental offers innovative internal plans.
- Spa-like, slower-paced environment where you're treated like friends and family
- Refreshments served

less likely to be referred elsewhere for specialized work, eliminating hassle and inconvenience. For example, we place dental implants and do restorations (crown placements), instead of referring patients elsewhere to have the implants placed."

Great-looking, Bright, Healthy Smiles

Dr. Thomas and her team go out of their way to make your experience with them as pleasant as it can be, but their ultimate goal is to keep your smile healthy and beautiful with state-of-the-art dentistry including cosmetic and restorative services, and preventive care.

"A beautiful smile is one of the first things people notice about you, and good oral health is integral to the health of the rest of your body," Dr. Thomas said. "We believe in giving our patients the finest, technologically advanced dental care while treating the patient as a whole. From improving their appearance, their overall dental health, or just to get them out of pain, I know that what I'm doing is helping them live a better life."

One of the things Dr. Thomas loves doing most is creating beautiful, functional, custom-designed smiles that are designed to last. Services include porcelain veneers and crowns, teeth whitening, dental implants, Invisalign, and more. Often, a major change in the appearance of your smile can be accomplished in just two or three office visits.

"Just like no two patients are alike, no two smiles are alike. I work closely with each patient to create a smile that fits their face and personality," Dr. Thomas stated. "It's thrilling for all of us in the office when a patient sees his or her new smile for the first time. We love to hear their stories when they come back in for check-ups, about how a new smile has been a life-changing experience."

"I will never switch dentists!"

Amanda decided to look for a new dentist when she became unhappy with hers. "I asked people for recommendations and Dr. Thomas' name kept coming up. I followed through and made an appointment with her, and am so glad that I did. She's amazing. I wouldn't see anyone else. Even though I have moved further away, I still go to see her. When you find a great dentist you don't want to change."

"I can tell Dr. Thomas really likes her work and enjoys helping her patients. She provides quality dentistry—everything I have had done by her is perfect, plus I love the extra benefits, like being able to get a massage during my visit."

"Having a nice smile really makes a difference in your life. I've had crowns done by Dr. Thomas and they match my smile perfectly, even in different light. I have taken my daughter to Dr. Thomas too. She's in her early 20s and needed a lot of work done. She had broken her front tooth and the crown that was there didn't match. Thanks to Dr. Thomas, all of her front teeth match now and her smile looks wonderful."

— Amanda

Meet Nishano Thomas, DMD

Dr. Thomas received her Doctorate of Dental Medicine from the University of Pennsylvania, an Ivy League school, graduating at the top of her class with honors. Passionate about providing the best dentistry available, she is avid about continuing education, participating in courses and seminars

throughout the year that focus on the most effective treatments being developed.

Dedicated to the community, Dr. Thomas donates services to many local charities and fundraisers, and donates a portion of our profits to charities such as the American Red Cross, the Susan B. Komen Foundation, and the American Cancer Society. A native of South Africa, she lives in Houston with husband, Mark, and their daughter, Angelina. Dr. Thomas enjoys spending quality time with her family when she's not working, taking walks in Memorial Park, swimming, and playing tennis. She is an active member of numerous organizations including the American Dental Association, Texas Dental Association, and the Greater Houston Dental Society.

"I can smile again!"

When Kay and her family moved from New Zealand to the U.S., Kay decided to do her own research on dentists instead of going with referrals. She was looking for a dentist with a "good reputation." Once she found Dr. Thomas, she knew she would be in the best of hands. Today, her entire family sees Dr. Thomas for general dentistry and preventive care, and Kay has had Dr. Thomas improve her smile with cosmetic dentistry.

"I was impressed with Dr. Thomas and her staff at the first appointment. That was around 6 years ago. Dr. Thomas is very concerned about the comfort of her patients plus she's personable and takes her time to get to know you. Everyone in the office is friendly, there's plenty of convenient parking, and they are great with follow-ups and appointment reminders."

"After seeing Dr. Thomas for a while, I decided to get veneers to correct a gap between my front teeth. I'm so happy with the results. I totally love my smile and find myself smiling more often now. Dr. Thomas did great work. I would recommend her to anyone because of the quality in dentistry that she offers and how friendly she and her staff are. They really take care of their patients. From the staff and the front desk to the chair side assistant and hygienist, they are all exceptional."

— Kay

It's All About You – The Patient

Dr. Thomas provides safe, gentle, and affordable high quality general and cosmetic dentistry. She has earned a great reputation throughout Greater Houston for providing unsurpassed dental care in an upscale, family environment. What does Dr. Thomas do differently? Creating an outstanding dental experience doesn't

happen by chance. Memorial Park Dental Spa brings it all together in one office, from comprehensive, individualized dental services and convenient office hours to a full-service day spa. Everything they do is for one reason—to best serve their patients.

Dr. Thomas commented, "We understand that many people can feel overwhelmed when they visit the dentist. Some new patients may even be fearful, especially those who have had a bad dental experience elsewhere. We strive to make every visit to our office a positive experience for patients of all ages. We're not a high volume dental clinic—I'm a single dentist with my own practice. Our patients are treated as individuals, not numbers. We maintain a one-to-one staff-to-patient ratio and offer personalized attention. Along with providing quality dentistry, our patient's comfort is important to us. Their well-being comes first and we do everything possible for the best of our patients."

The extraordinary patient experience provided at Memorial Park Dental Spa begins with something fundamental—

Dr. Thomas loves what she does, is passionate about helping people, and focuses on patient comfort in addition to providing top-notch dentistry. Along with this, she has hand-selected a skilled, friendly staff who believe as strongly as she does in providing exceptional patient-centered care. They also enjoy their job as much as she does, and it shows. There's lightness of heart and spirited comradery in the office, combined with professionalism that is a rare find. Patients immediately feel like they are among friends and family, and know they will be well-cared for.

"Being a dentist and making a positive change in someone's life is the best job I could ever ask for," Dr. Thomas added. "Each day, I gain something from my patients, whether they're sharing with me their interests and a warm smile, seeing the excitement a patient expresses when telling me how dentistry has changed their life, or hearing a simple "thank you." It's what makes my career so enjoyable."

Exceptional dental care can make a difference in your smile, and in your life. Dr. Nishano Thomas and her team invite you to call and schedule a consultation today.
