Scott B. O'Connor

DPM, FACFAS

Dr. O'Connor, an Illinois native, obtained his Bachelor of Science degree from the University of Illinois. He earned his Doctor of Podiatric Medicine (DPM) from the Ohio College of Podiatric Medicine and then performed two years of extensive surgical training in Indianapolis. He is certified by the American Board of Foot & Ankle Surgery in Foot Surgery and Reconstructive Rear-Foot and Ankle Surgery.

Dr. O'Connor specializes in conservative and surgical repair of foot and ankle deformities including ankle arthroscopy, ankle stabilization, major fusions, heel spur repair, tendon and ligament repair, as well as bunions, hammertoes and ingrown toenails.

Testimonials

Dr. O'Connor, each year at Thanksgiving I look back to see who I am most thankful for. This year I am thankful that you were willing and able to share your time and skills with me. My foot feels great! Walking is again enjoyable. Thank you for your help. -Robbie G.

Thank you Dr. O'Connor and the staff for the Orthotics I've needed for so long...you are doing God's work. I have been using them every day. Take care and God Bless! -Sandy W.

Doc O'Connor & Staff - Thank you for taking such great care of my Mom. It so makes a difference when you treat the patient as a special person!! -Susan T.

Scott - We cannot thank you enough for helping E. out with a solution for his heels. The orthotics seem to be working. :) Thanks so much! -Shauna P.

Thank you for the amazing care you gave my husband. He is much more comfortable in his work boot after the surgery. We cannot Thank You enough. Your thoughtfulness is appreciated more than words can say! Thank You. -Michelle R.

Dear Dr O'Connor, Each day that I go out for a run, I feel that I owe you a big 'Thank You.' I'm glad I didn't give up on finding a podiatrist who could help me. I knew on the first visit that you'd be the one to find solutions to the various problems I had. Relieving the pain from the neuroma was the biggest 'miracle' to me. Just wanted you to know I'm definitely a satisfied patient—even though 'Runners make the worst patients'—your words, not mine!! :) -Donna E.
