

Mitochondrial Restore Kit

Clinical Applications

- Improved insulin sensitivity and action
- Improved glucose disposal
- Improved exercise performance
- Increased Nitric Oxide (NO) production
- Improved cardiovascular and endothelial function
- Improved appetite control
- Reduced fat mass
- Increased muscle mass
- Improved exercise performance
- Improved antioxidant status and resistance to oxidative stress

The Lifestyle Spectrum Mitochondrial Restore Kit supplies three pharmacologically active, orally bioavailable nutraceutical formulas intended for use in promoting mitochondrial biogenesis. The nutraceuticals found in the Mitochondrial Restore Kit are safe and well-tolerated and have been uniquely prepared to enhance both absorption and residence time in the body so as to maximize patient benefit and satisfaction. All Lifestyle Spectrum formulas meet or exceed certified Good Manufacturing Process (cGMP) quality standards.

Mitochondrial Restore Kit Meets or Exceeds cGMP quality Standards

Mitochondrial Restore Kit

Resveratrol

Supplement Facts		
Serving Size: 1 Capsule		
Servings Per Container: 20		
	Amount Per Serving	%Daily Value
Quercetin 95%	250 mg	**
Resveratrol (as <i>Polygonum cuspidatum</i> extract, 50%)	75 mg	**
Dimethyl Resveratrol (<i>Pterostilbene</i>)	25 mg	**
** Daily Value not established.		

OTHER INGREDIENTS: Microcrystalline cellulose, acacia gum, silica, stearic acid, magnesium stearate.

DESCRIPTION: Resveratrol provides a complete bioflavonoid complex with resveratrol, quercetin, and pterostilbene to take advantage of three antioxidants with known synergisms. Pterostilbene is a new focus of scientific research because it is resveratrol with attached methyl groups, suggesting that it is "bio-optimized," especially in conjunction with resveratrol and quercetin. These compounds are being extensively studied in the areas of cardiovascular health, capillary integrity and aging.†

N.O. Enhance

Supplement Facts		
Serving Size: 3 Caplets		
Servings Per Container: 60		
	Amount Per Serving	%Daily Value
Arginine <i>alpha</i> -ketoglutarate‡	1980 mg	**
ACTINOS® Whey Peptide Fraction‡	150 mg	**
** Daily Value not established. ‡Controlled Delivery Formulation		

OTHER INGREDIENTS: Dicalcium phosphate, cellulose ethers and composites, pectin (citric fruit extract), seaweed extract, corn extract, magnesium stearate.

DESCRIPTION: N.O. Enhance represents a patented, extended-release nitric oxide precursor. Scientists now refer to nitric oxide as the "foundation" of cardiovascular health. This tiny molecule is a vasodilator responsible for controlling blood flow to the entire body, which may help support healthy blood flow pressure; and promote the health of the endothelium - the inside of blood vessels. With age comes diminished NO levels; that's why since 1988, when three scientists won the Nobel Prize for their discovery of NO, researchers have been working to harness its heart-healthy power. Today, that power has been realized with N.O. Enhance.†

PROTECTED BY U.S. PATENT: 6,905,707

Alpha Lipoic Acid

Supplement Facts		
Serving Size: 1 Tablet		
Servings Per Container: 60		
	Amount Per Serving	%Daily Value
Biotin	450 mcg	150%
Alpha-Lipoic Acid (<i>thioctic acid</i>)	600 mg	**
** Daily Value not established.		

OTHER INGREDIENTS: Calcium phosphate, croscarmellose sodium, magnesium stearate.*

* Derived from non-bovine (vegetable) sources only.

DESCRIPTION: Alpha Lipoic Acid is a powerful, whole-body, multifunctional antioxidant that helps create and maintain healthy, well-functioning cells. Alpha Lipoic Acid is designed to neutralize free radicals at the moment of their formation - before they can cause damage to your cells. Alpha Lipoic Acid has the ability to destroy free radicals in both water-based and lipid-based cells, making it the ideal whole-body antioxidant. In addition, Alpha Lipoic Acid helps the body create glutathione, the body's own master detoxifier. Alpha Lipoic Acid also "regenerates" other consumable antioxidants, such as vitamins C and E, and CoQ 10, giving them the ability to continue fighting free radicals for extended periods of time. Unlike regular alpha-lipoic acid, Alpha Lipoic Acid's patented, controlled-release formulation gives you protection all day. In addition, biotin supports the function of lipoic acid in regulating glucose metabolism.†

PROTECTED BY U.S. PATENTS: 6,191,162(B1); 6,197,340(B1); 6,572,888(B2); 7,118,762(B2)

Dosing

Take 1-2 packets per day or as directed by your healthcare professional. Each packet supplies 3 N.O. Enhance, 1 Resveratrol, and 1 Alpha Lipoic Acid. Take one packet with 8 oz. water, 30 minutes before breakfast and 30 minutes before lunch.
