

Medibles™

HAIR REPAIR FORMULA

When you lose your hair, your self-esteem diminishes as well – and that can be profoundly life-changing. If you're experiencing unwanted hair loss, whether you're a man or a woman, you're probably all too familiar with its detrimental effects. No matter your gender, a full head of hair is easy to take for granted until it's gone.

But if you're suffering from hair loss, there's hope: Medibles™ Hair Repair Formula, a state-of-the-art hair loss solution developed by Dr. Gino Tuter. This proprietary blend of ingredients halts the biological processes associated with hair loss and supplies essential nutrients to support healthy hair growth at the deepest, cellular level.

Biologically speaking, you lose your hair when naturally occurring testosterone converts into DHT (DiHydro Testosterone), which binds to the scalp's receptor cells and disrupts the hair growth cycle. Medibles™ Hair Repair Formula's primary ingredient, Saw Palmetto, inhibits specific enzymes and ultimately blocks excess DHT from forming on the scalp, keeping the hair growth cycle intact. At the same time, Hair Repair Formula's other key components are working to enhance the Saw Palmetto's action. Elements such as d-Biotin, Zinc, and Selenium stimulate scalp health, supply a steady stream of essential nutrients, and promote an environment that inhibits hair loss and encourages new growth.

The result? A dramatic reduction in unwanted hair loss – and the valuable preservation of your self-esteem. Medibles™ Hair Repair Formula is a simple step you can take daily to ensure that the hair you've got is yours to keep.
