## PAD QUESTIONNAIRE

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Date of birth: \_\_\_\_\_

Physician: \_\_\_\_\_

1. Peripheral Arterial Disease (PAD) is a common circulation problem in which the blood vessels, which carry blood to the legs or arms, become narrow or clogged.  
Circle YES or NO to the following questions so we may see if you have symptoms of PAD:

2. When you walk or exercise, do you experience aching, cramping or pain in your arms, legs, thighs or buttocks? Yes No

If you answered yes, does the pain subside with rest? Yes No

If applicable, circle the area of the body on the diagram where you feel pain:

3. Do you have pain in your legs at night? Yes No

4. Have you had surgery, balloon procedures, or stents to any blood vessels other than your heart? Yes No

5. Have you had blockages in the arteries in your heart? Yes No

6. Do you have any painful sores or ulcers on your legs or feet that aren't healing? Yes No

7. Do you have (circle all that apply):

Diabetes

High Cholesterol

History of Smoking

High Blood Pressure
