

## **NEW PATIENT WELCOME LETTER**

Welcome to Magnolia Pain Associates, the office of Dr. Sandhu-Feghali

Specializing in interventional pain management.

Decreasing your pain its impact on your personal and professional life is our first and foremost concern. We deliver a complete program of unique, state-of-the-art pain control techniques to help you:

- Advance your functional ability
- Improve your emotional well being
- Optimize your quality of life

Our team employs a caring and responsive attitude at all times. All patients are treated with dignity and respect for privacy, and we will not release any information about you unless we have signed released to do so. We are committed to providing you with quality pain management services and the highest standards of medical care in a cost-effective manner.

**A THROUGH APPROACH FOR THE BEST RESULTS:** We work closely with your referring and primary care doctors. We continuously monitor and measure the effectiveness of your therapies and, on regular basis, deliver telephone and written updates of your progress to your referring physician and all others that you request.

Optimum pain management beings with an accurate diagnosis of the origin of your pain. We request that referring physicians send us a complete medical history, including results of radiology and laboratory tests and any previous approaches to pain management that have been taken. Before we can develop a comprehensive, individual treatment plan for you, you must receive a thorough medical evaluation.

Your first visit includes:

- A detailed medical history and physical examination
- Review of all the past diagnostic and treatment data

-Medication History

-Radiology Test: X-ray, CT, MRI, and Bone Scans (bring pertinent x-rays or MRIs)

-Laboratory Test

-Surgical Reports

**TREATMENT OPTIONS:** These established and innovative therapies provide a significant reduction or complete elimination of pain in most patients. Your individual treatment plan may include one or more of the followings:

- Nerve Blocks and Nerve Lesioning
- Spinal Cord Stimulation
- Joint Injections
- Regenerative Medication

**PRIOR TO YOUR VISIT:** In order to expedite your first visit and serve you best please print and complete the attached forms prior to your visit or arrive 30mins prior to your appointment to complete them before your appointment time. Please ensure that you have a valid form of government ID and all insurance card(s) with you for your first appointment. Thank You. We look forward to seeing you.
