## CONSENT AND RELEASE

I, the undersigned, indicate that I am not a representative of the government or any investigative institution.

I understand and acknowledge that no claims of “curement” are being made. I am aware that during the assessments and some therapies, there may be palpation (physical and biological) involved to establish functional support protocols designed specifically for me. I also understand that I might be asked to take nutritional supplements before, during and after any analysis or therapy administered and will do so at free will.

I understand that I may also volunteer to take nutritional supplements during the research process and will do so of my own free will. I further understand and acknowledge that no claims of any kind are being made by Hurley Wellness Center as to the effectiveness of any of the nutritional supplements suggested. Realize chronic complaints have occurred over time with multitudes of variables, we believe there are 6 steps in obtaining optimal wellness, we believe all 6 steps need to be supported in order to obtain and maintain that optimal wellness. No one is going to live or die for you. We are here to educate and make suggestions for your path to wellness, we will even hold your hand on your journey to wellness but ultimately it is your choice.

### **Fee and Payment**

I understand Dr. Hurley does not participate in private health insurance programs, Medicare, Medicaid, or any other supplemental insurance. I understand that I will be expected to pay in full at the time of service and that Hurley Wellness Center accepts cash, check, Visa, or Mastercard. If I require any copies of medical health records, there will be a charge. If laboratory test are ordered, payment must be paid prior to testing.

I also understand that Dr. Hurley charges for time she spends on my behalf when not in my presence, including telephone consultations, emails, medical record reviews, and preparation of written documents, including review and signing. I understand she charges the same hourly rate as for clinic visits.

### **Missed Appointments/Cancellation/Rescheduling**

- All clients are required to pay a \$25 booking fee that will be deducted from the total amount at the time of service. Clients are charged a fee for a missed appointment and for those cancelled or rescheduled with less than 24 hours prior to their scheduled visit. Fees are charges at the regular hourly rate according to the amount of time that has been reserved on Dr. Hurley's schedule.
- Unless cancelled at least 24 hours in advance, your missed appointment will be charged the full amount.

### **Late Arrivals and Returned Check**

Late arrival for an appointment results in shortened length of treatment time. If you are more than 15 minutes late, you may be asked to re-schedule your appointment. I understand that I will be billed for the total time of the original scheduled visit. Therefore, we ask that you arrive at least 10 minutes prior to your scheduled appointment time in order to check in, weigh, drink water, and use the restroom facilities if necessary prior to the start of your visit with Dr. Hurley.

If a check is returned due to insufficient funds, a fee of \$30 will be assessed to the patient's account.

With my signature I indicate my understanding of, and agreement with, the above policies.

### **Nutritional Supplements Disclosure**

Nutritional supplementation is often a central component of your treatment because vital nutrients help you heal yourself. In our experience, most clients with chronic health problems have functional deficiency states which interfere with their healing. Replacing specific nutrient insufficiencies, often at high doses, is one of our most effective tools to help clients improve their health.

Some people feel benefits from supplements within one month, while others require several months to feel substantially better. Especially in the early phases of your treatment, you might actually feel worse before you begin to feel better.

It is important to us that our treatment plans are built on the highest quality nutritional supplement available. Our suggested supplementation is standardized and pharmaceutical grade. Therefore, the specific supplements we recommend have been chosen after considerable and ongoing investigation into quality and effectiveness. The supplementation suggested are ones that we determine through bio-feedback from blood chemistry, saliva analysis, stool analysis, etc and provide what we believe to be the greatest benefit to our clients. Most of these products are specialized nutritional formulas which are not available at local stores or online and are only available to health care providers.

Like other places where you may purchase supplements, we do have financial interest in the sale of supplements. Income generated from these sales are used to cover the cost of providing this and other clinic services, including continued investigation into new and better products as well as helping to keep our fees for office visits lower. We are aware that many of the stores in the local area sell excellent products, and we encourage you to shop around and compare. *We want you to feel no pressure to buy these products from us.*

With my signature I indicate my understanding of, and agreement with, the above policies.

### Therapies Disclosure

Most of the therapies provided by Hurley Wellness Center feature State of the Art equipment. Many, but not all, therapies are FDA approved. The ones that are not approved by the FDA are used strictly for clinical research or are ones that HWC deems supportive to the body. We have daily, weekly, monthly, and annual company maintenance checks on equipment. However, occasionally there may be an equipment malfunction due to no fault of our own. If malfunction prevents you from completing a scheduled therapy session, you will be provided either an equal exchange therapy or a partial refund for any unused time.

Hurley Wellness Center reserves the right to refuse a therapy due to preexisting health issues or any other reason. Be aware that health issues may interfere with therapy results. We suggest that you consult with your physician prior to any therapy. With my signature below, I indicate that I have read and understood the statement above.

If I am purchasing a therapy package, individual therapy, or lab analysis, then it is to be used in full within 365 days of the date the contract was signed. I understand that NO refunds or exchanges of ANY unused therapy will be given for any reason other than death of the signed client. If such has occurred, the spouse or person listed above may have the package transferred to them. A partial refund may be available for the spouse, but the stipulations will be that the therapies that were not completed will be charged to the package holder at original cost (not the discounted price) and there is a **\$300** administrative fee charged to the package holder. These will be totaled and deducted from the package cost to assess the remaining balance that may be refunded to the client's spouse.
