NO REFERRAL, INSURANCE OR AUTHORIZATION

A referral is an authorization from your primary care physician to allow you to see a specialist for a duration of time, typically 90 days to a year. Not all insurance plans require a referral to see a specialist. If you are unsure if your insurance requires a referral to see Milford Vascular, please contact your insurance provider.

If I do not have a referral from my primary care physician, I agree to be responsible for payment of all expenses incurred from my first date of service. If I cannot produce accurate, updated insurance information for claim submission, I agree to be responsible for payment of all expenses incurred from my first date of service.

If and when I obtain my insurance information or accurate, updated referral information, I will provide this to Milford Vascular Institute.
