

Due to family health issues, it is with deep regret to tell you and your family, that I will be retiring as of January 1st, 2019. It has been my privilege and a great pleasure to be your doctor. I have been honored by the trust you have given me to monitor your health care.

The Crivitz clinic will continue to remain open with access to Dr. Yasser Salem and Amel Elshaier, NP to follow you and your families healthcare needs. All of our staff, including Kitt and Stacy will continue to provide the exceptional care you have come to expect from Quantum Health Clinic.

I would like to introduce to you our nurse practitioner, Amel Elshaier, who will be taking over for me. She is one of the most caring and knowledgeable individuals I know. I have worked with many Nurse Practitioners in my career and she is, by far, the most qualified NP that I have had the opportunity to work with.

Amel began her medical career at Alexandria University in Egypt with a Masters in Internal Medicine Practice, which is the equivalent of an MD degree in the United States. After coming to the U.S., she earned a PhD in Biochemistry from Rush Medical College in Chicago; subsequently, becoming an instructor in Biochemistry at NWTC in Marinette.

Amel continued to pursue her education graduating with a Bachelor of Science degree in Nursing at UW Green Bay. She has been working closely with myself in primary care at Quantum Healthcare and as a cardiology nurse for Heart Failure Survival Center of America. During this time, she has went on to obtain her Doctorate of Nurse Practitioner at UW Madison. Amel also has certification in Oncology, Advanced Cardiac Life Support and Pediatric Advanced Life Support. Specifically, training with myself in diabetes, wart removals and sutures.

Amel is looking forward to providing Family Medicine and Urgent Care to the families in the Crivitz and the surrounding areas. If you have any questions, or if you wish to meet with Amel, please call the clinic at 715-854-7050.

Sincerely,

A handwritten signature in cursive script that reads "Peter R. Curio". The signature is written in dark ink and is positioned above the printed name.
