The Jade Lotus Package

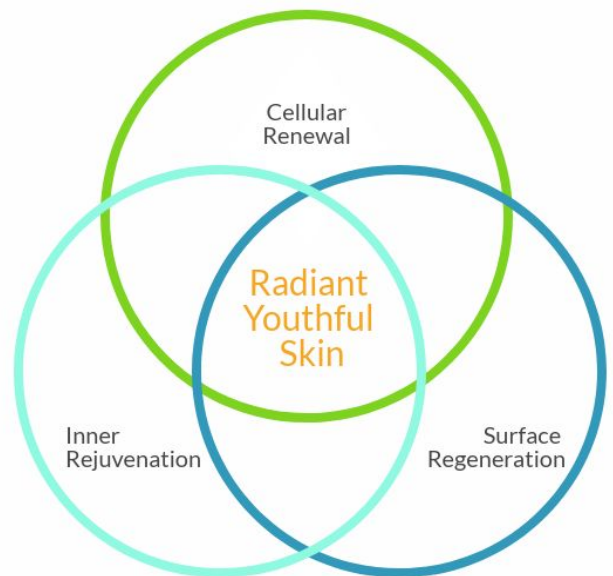

The natural 5-week system to a radiant, youthful complexion

Reduce fine lines and wrinkles, lift and firm saggy skin, and reverse dull, aging skin using our unique, non-invasive approach.

This totally unique approach to turning back the clock helps to regenerate youthful skin in 3 ways. **Cellular renewal;** The ancient healing technique of facial rejuvenation acupuncture, used by the Chinese for centuries, increases blood flow and collagen formation, and tightens the muscles of the face which result in a lifting and plumping effect. The application of a jade stone roller decreases inflammation and soothes sensitive, irritated skin creating a flawless skin tone. **Surface regeneration;** The scientifically proven Jade & Ginseng line of skin care products resurface and protect the outer layer of the skin, exposing the new cell layer beneath, and provide deep moisture to help create that youthful dewy glow. **Inner rejuvenation;** The specially formulated chinese herbal formula helps the body's natural ability to improve and maintain healthy, rejuvenated skin from the inside-out.

Included in this program:

- **10 cosmetic acupuncture sessions**
