

## **Missed Appointment Policy**

Effective January 1, 2019, Abilene Family Medical Associates, LLP implemented the following Missed Appointment Policy:

Each Missed Appointment will have a fee assessed of \$50.

Repeatedly canceling or not showing up for a scheduled appointment interferes with the physician's ability to provide you the highest quality care. Additionally, lack of notice prevents us from offering the appointment time to another sick patient.

If you are unable to attend a scheduled appointment, please call at least 24-hours prior to your scheduled appointment time.

If there are excessive Missed Appointments your provider may decide to sever the physician-patient relationship and you will be dismissed from this practice by the physician.

Please understand that this Missed Appointment fee will be billed to you, not your insurance, and it is due and payable within 30 days of the charge.
