

## A SPECIAL WOMEN'S EVENT

Thursday, November 30th 5:30pm AND 6:30pm

SPACE LIMITED REGISTER NOW

### Post partum & post menopausal vaginal laser treatment!

diVa is the quick, comfortable, **minimal-downtime** solution to a woman's most intimate challenges and overall vaginal health.

Learn how Dr. Casperson can customize your diVa treatments to address your intimate challenges and produce the results you desire. Dr. Casperson and her team are helping women who suffer from urinary incontinence, vaginal laxity, decreased lubrication, pain during intercourse and loss of sensation.

"I have spent over a decade taking care of women and their pelvic health issues. I kept being asked for a non-hormonal, non-surgical option that doesn't take a lot of time. Vaginal Laser Therapy integrated into a comprehensive female urology and pelvic clinic fills the need I believe so many women have been asking for."

**DR. KELLY CASPERSON**  
Physician, Surgeon, Mother
