- Flexible scheduling
- Elite Fast Track** program available
- Overnight and travel arrangements

### FOR BUSY PEOPLE

We understand you are busy and have little time to spend at doctor's appointments. That is why we offer the Elite Fast Track Program. We have set up this program with you in mind. Fill out our 1 page medical history form and provide requested photos. Our surgeon will review your information and if you are a candidate we will arrange an online consultation with our surgeon.

After your consultation you will be contacted by our patient care coordinator to help you with the next steps and prepare you for surgery. You will be scheduled for your preoperative visit, surgery day and postop visit together. All preoperative needs are taken care of at your first visit. We have a cardiologist and laboratory available at our location if indicated. We assist your recovery by taking care of hotel arrangements at the Holiday Inn Express and Suites, only 25 yards from our facility. Our surgeon can see you the morning after surgery in your room and again later in the day at our office.

A one week call will be arranged as well as at one month. Our nurse and surgeon will be available to you by phone for any questions or concerns during your expedited recovery.
