

EDMUNDS GASTROENTEROLOGY

**AFTER HOURS CARE**

**Policy:**

This facility operates on business hours and does not provide after hours care.

If a patient needs medical care after hours, they are instructed to contact the on-call physician or to go to the closest emergency room for care.

These instructions are provided when the patient calls our office after hours and are included in the discharge instructions provided to each patient who has a procedure in our facility.

Any care or instructions given to the patient after hours will be documented by the on call physician in the medical record.
