Office Announcements

§ **Melanoma Awareness:** We are happy to announce that we have partnered with the maker's of the **miiskin app** that can be used on your Apple or Android phone to help monitor your skin for new or changing moles. The app must be downloaded via [THIS LINK](#) so that you can receive 20% off of the premium version. Please remember, you need to call for an appointment at the first sign of a new or changing mole.

§ **Keeping your skin healthy and happy:** We have introduced two new sunscreen products by Isdin. **Eryfotana Actinica** is a broad spectrum SPF 50+ mineral sunblock that contains DNA Repairsomes which deliver a repair enzyme to repair sun damaged DNA within the skin. We are also carrying the all new Isdin SPF50 Mineral Brush. Super portable and easy to apply. Light-reflecting particles that reduce the appearance of wrinkles and make skin look smoother. It has no color, adapts to any skin tone and can be applied over makeup. We continue to offer the supplement HelioCare Advanced, with Nicotinamide. **Nicotinamide** is a water-soluble vitamin B3 that acts to prevent photo-ageing and non-melanoma skin cancers. We also offer HelioCare Plus, a supplement containing *Polypodium leucotomos* fern extract. [Studies](#) show it has been successfully used to treat **pigmentation** disorders such as melasma. We now carry two sizes of **Biocorneum** Advanced Scar Treatment Gel with SPF 30 to minimize the formation of hypertrophic scars following skin surgery.
