As permitted by law, your health information will be shared with this exchange in order to provide faster access, better coordination of care and assist providers and public health officials in making more informed decisions. MISSED/LATE ARRIVAL APPOINTMENT POLICY

All patients are required to give a **24 hour notice if unable to keep a scheduled appointment**. A **\$35.00 fee** will be collected for any non-compliance with our policy. Repeated late cancellations and/or missed appointments will result in the discontinuation of your treatment with ORTHOPEDIC & WELLNESS. At ORTHOPEDIC & WELLNESS, we value your time and in turn, we strive to maintain a time-conscious schedule. Our Physicians and Staff work together to keep the schedule on time. We ask that our patients help us by arriving at least 30 minutes early for each appointment in order to be ready to be seen at their scheduled appointment time. Our Physicians are rotationally "on call" which can sometimes impinge the promptness of an appointment; we apologize for any inconvenience but ask for your support and understanding. If a patient arrives after their scheduled appointment time, ORTHOPEDIC & WELLNESS has the right to ask that patient to reschedule their appointment if there is no available time for the patient to be seen.

I have received and read the above information in this packet, which includes the company's referral policy, the billing information, and the Notice of Privacy Practices. I have read and acknowledge the policies of ORTHOPEDIC & WELLNESS, as stated above. I understand failure to comply with these policies may result in the discontinuation of my treatment with the said facilities.

ADVANCE DIRECTIVES NOTICE

At your request, we can make available an Advance Medical Directives formulary for you to read, fill out, and sign at your discretion. Maryland law recognizes as valid "living wills" and advance medical directives allowing you to decide under certain circumstances, in advance, that in the event of an unexpected medical crisis such as cardiac or respiratory arrest, no attempt should be made to resuscitate you, and all life sustaining procedures should be withheld from you. Also, in the event that you are incapacitated and unable to make such a decision on your own behalf, medical decisions, including the decision to withhold or withdraw life support, may, under the same circumstances, be made for you by a "health care agent" previously designated by you, or by a "surrogate" decision maker, such as your adult child, parent or spouse. Because of the nature of our facilities, and recognizing that surgical services provided in these facilities are elective, we are unable to honor "do not resuscitate" orders or similar advance medical directives. In the event of a sudden life-threatening medical situation, we will immediately begin the administration of life-sustaining procedures, and transfer you to the nearest hospital as soon as possible.
